SKILLS

- **Languages**:   C++, JavaScript, C, Python
- **Frameworks**:   Selenium,HTML and CSS, Bootstrap, React
- **Tools/Platforms**:   MySQL, MongoDB
- **Soft Skills**:   Problem-Solving Skills, Team Player, Project Management

PROJECTS

- **ThrillQuest : Adventure Travel Booking Platform**:   February 2025
  A responsive adventure booking platform connecting thrill-seekers with unique experiences.
  Built with HTML, CSS, Bootstrap, React, and JavaScript, it features interactive UI elements and a dynamic
  search interface.
  Future development phases will integrate robust APIs, secure payment gateways, and real-time booking
  updates to ensure a seamless user experience.
  Tech: HTML, CSS, Bootstrap, React, JavaScript

- **Virtual Herbal Plant Garden :**   January , 2025
  Developed an interactive Virtual Herbal Plant Garden to provide users with an immersive experience in
  exploring various herbal plants. The platform allows users to visualize 3D models, access plant information,
  and engage with multimedia content for educational and research purposes.
  Interactive UI: Built with React.js for a seamless and dynamic user experience.
  Plant Database: Provides detailed descriptions, benefits, and growing conditions of herbal plants.
  3D Visualization: Integrates interactive 3D models (if applicable) for better plant exploration.
  Tech: React.js, Node.js, HTML, CSS

- **MoveMaster : Logistics Management System :**   October – November , 2024
  Developed a Logistics Management System to streamline and optimize the movement of goods, track shipments,
  and manage inventory efficiently.
  The system enables businesses to monitor real-time logistics operations, automate order processing, and improve
  supply chain visibility.
  Tech : SQL Server
